Serial No. : 09/980,054 Group Unit : TBA
Filed : Nov. 28, 2001 Examiner : TBA
For : NOVEL GENES OF CANDIDA ALBICANS AND THE PROTEIN
CODED BY THESE GENES

RESPONSE TO COMMUNICATION FROM EXAMINER

Commissioner of Patents
Washington, D.C. 20231

Dear Sir:

In response to a Notification of Missing Requirements under 35 U.S.C. 371 in the United States designated /elected office (DO/EO/US) dated January 14, 2002, applicants provide the following amendment and remarks.

REMARKS

Applicants submit herewith a paper copy of a substitute sequence listing in response to the Notification of Missing Requirements. Applicants have corrected the sequence listing as requested in the Communication. In particular, applicants have corrected the Sequence Listing to include the type of molecule as PROTEIN for SEQ ID NOs: 2, 4, 6, 8, 10, 12, and 14. Furthermore, as required by 1.823 of the Sequence Rules regarding the mandatory use of <220><223> if n's and Xaa's are present, amendments have been made to indicate the location of residues represented by n's and Xaa's for SEQ ID NO:21.
